

DIMENSIONS

Rolls:

- 2 meters wide by 25 meters long;
- 4 meters wide by 25 meters long;

Thickness: 25mm

Tolerance: +/- 10%

WEIGHT

2222 g/m² (approximately)

FEATURES

Composition: Polypropylene cloth, textured polyethylene grass.

Colors: Green, blue, red, yellow, purple, white and black.

Dtex: 7000/6

Fiber weight (g/m²): 1029 g/m²

Number of points (m²): 58 800 points

Number of nodes (m²): 29 400 nodes

Tear: 3/8"

Properties:

- Fire resistant according to standard UNE-EN 13501-1:2007+A1:2010
 - UV resistant (5/5) according to standard UNE-EN 20105-A02:1998;
 - Artificial aging according to regulations UNE-EN 14835:2006 e UNE-EN 14836:2066/AC:2008;
 - Break point force (56N) according to regulations ISSO 4919:2012;
 - Does not contain heavy metals dangerous to public health;
 - Little abrasion to friction;
 - Perforated base for draining water up to a volume of 60 liters/m²
- Possibility of printing metric markings and / or logos.

FINALITY

Floor used for simulation of natural grass. Used for sliding equipment.

MAINTENANCE

In indoor use, cleaning must be carried out using brushes. In outdoor use it can be with water pressure. The use of abrasive products such as those containing hydrochloric acid and / or bleaches is prohibited.

WARRANTY

For 2 year end consumers.

For 1 year business consumers.

Warranty exclusion: Not for use outdoors. When not properly cleaned and serviced as described in maintenance.
